                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |       |      |        |      |       |      |        |         |        |          |      |         |      |      |      |    |      |        |        |        |        |      |       |      |       |   |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |     |      |      |    |        |        |        |    |        |      |        |      |        |      |        |     |        |         |        |     |        |      |      |       |      |      |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |       |      |        |      |       |      |        |         |        |          |      |         |      |      |      |    |      |        |        |        |        |      |       |      |       |      |        |           |     |      |      |       |        |      |     |      |     |     |     |       |     |       |      |      |       |       |      |       |      |    |       |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |     |      |      |    |        |        |        |    |        |      |        |      |        |      |        |     |        |         |        |     |        |      |      |       |      |      |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |       |      |        |      |       |      |        |         |        |          |      |         |      |      |      |    |      |        |        |        |        |      |       |      |       |   |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |     |      |      |    |        |        |        |    |        |      |        |      |        |      |        |     |        |         |        |     |        |      |      |       |      |      |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |       |      |        |      |       |      |        |         |        |          |      |         |      |      |      |    |      |        |        |        |        |      |       |      |       |      |        |           |     |      |      |       |        |      |     |      |     |     |     |       |     |       |      |      |       |       |      |       |      |    |       |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |     |      |      |    |        |        |        |    |        |      |        |      |        |      |        |     |        |         |        |     |        |      |      |       |      |      |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |       |      |        |      |       |      |        |         |        |          |      |         |      |      |      |    |      |        |        |        |        |      |       |      |       |                                                                                                                                                                                                              |     |      |      |    |        |        |        |    |        |      |        |      |        |      |        |     |        |         |        |     |        |      |      |       |      |      |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |     |      |      |    |        |        |        |    |        |      |        |      |        |      |        |     |        |         |        |     |        |      |      |       |      |      |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |       |      |        |      |       |      |        |         |        |          |      |         |      |      |      |    |      |        |        |        |        |      |       |      |       |      |        |           |     |      |      |       |        |      |     |      |     |     |     |       |     |       |      |      |       |       |      |       |      |    |       |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |     |      |      |    |        |        |        |    |        |      |        |      |        |      |        |     |        |         |        |     |        |      |      |       |      |      |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |       |      |        |      |       |      |        |         |        |          |      |         |      |      |      |    |      |        |        |        |        |      |       |      |       |   |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |     |      |      |    |        |        |        |    |        |      |        |      |        |      |        |     |        |         |        |     |        |      |      |       |      |      |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |       |      |        |      |       |      |        |         |        |          |      |         |      |      |      |    |      |        |        |        |        |      |       |      |       |      |        |           |     |      |      |       |        |      |     |      |     |     |     |       |     |       |      |      |       |       |      |       |      |    |       |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |     |      |      |    |        |        |        |    |        |      |        |      |        |      |        |     |        |         |        |     |        |      |      |       |      |      |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |       |      |        |      |       |      |        |         |        |          |      |         |      |      |      |    |      |        |        |        |        |      |       |      |       |   |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |     |      |      |    |        |        |        |    |        |      |        |      |        |      |        |     |        |         |        |     |        |      |      |       |      |      |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |       |      |        |      |       |      |        |         |        |          |      |         |      |      |      |    |      |        |        |        |        |      |       |      |       |      |        |           |     |      |      |       |        |      |     |      |     |     |     |       |     |       |      |      |       |       |      |       |      |    |       |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |     |      |      |    |        |        |        |    |        |      |        |      |        |      |        |     |        |         |        |     |        |      |      |       |      |      |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |       |      |        |      |       |      |        |         |        |          |      |         |      |      |      |    |      |        |        |        |        |      |       |      |       |   |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |     |      |      |    |        |        |        |    |        |      |        |      |        |      |        |     |        |         |        |     |        |      |      |       |      |      |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |       |      |        |      |       |      |        |         |        |          |      |         |      |      |      |    |      |        |        |        |        |      |       |      |       |      |        |           |     |      |      |       |        |      |     |      |     |     |     |       |     |       |      |      |       |       |      |       |      |    |       |     |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |     |      |      |      |      |     |       |      |       |      |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |     |      |      |    |        |        |        |    |        |      |        |      |        |      |        |     |        |         |        |     |        |      |      |       |      |      |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |       |      |        |      |       |      |        |         |        |          |      |         |      |      |      |    |      |        |        |        |        |      |       |      |       |   |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |     |      |      |    |        |        |        |    |        |      |        |      |        |      |        |     |        |         |        |     |        |      |      |       |      |      |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |    |        |      |      |     |        |      |        |      |       |      |        |      |       |      |        |         |        |          |      |         |      |      |      |    |      |        |        |        |        |      |       |      |       |   |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |     |      |      |    |        |        |        |    |        |      |        |      |        |      |        |     |        |         |        |     |        |      |      |       |      |      |      |          |      |       |      |        |     |      |      |      |       |        |     |     |       |     |        |          |      |     |      |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |     |      |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |      |     |       |      |       |      |      |      |        |      |      |         |       |         |     |          |   |      |     |         |        |     |       |      |      |          |      |         |      |         |      |       |      |      |        |      |        |       |        |      |      |       |      |    |      |      |      |     |        |    |     |      |      |        |     |      |      |     |      |        |       |     |       |          |      |    |      |      |      |        |     |     |        |          |     |         |     |       |     |     |       |     |     |      |      |      |     |     |        |    |      |          |      |       |      |       |   |    |      |       |     |     |       |      |        |      |      |      |      |      |     |        |     |     |        |      |      |       |      |       |     |         |       |          |     |      |      |        |       |      |      |    |       |       |        |      |        |    |       |      |       |     |       |    |     |      |       |     |        |      |        |         |        |     |     |     |        |          |      |      |        |
